Analysis of K-CET 2018 Physics paper held on 19 April, 2018

Following are the observations and analysis of K-CET 2018 Physics paper.

1. All the questions are within the prescribed syllabus of I and II PU.

2. Paper contains 16 questions from I PU and 44 from II PU.

3. Questions are spread out amongst all the prescribed topics, according to the weightage.

4. The number of numericals is more than last year (around 50% of the questions).

5. Level of difficulty: 35% questions easy, 55% of questions are moderate and 10% questions are difficult.

6. A well prepared student can score 80 to 85%.

Paper Analysis is done by Prof. Rathnakar KG (9448151630)
HOD - Physics Department - BASE
Student comments will be sent along with Chemistry paper analysis.
